Kuhusu Tathmini za Astra About the Astra Assessments

Kuhusu Tathmini za Astra

About the Astra Assessments

Tathmini za Astra ni mfululizo wa tathmini za kila robo mwaka kutoka Innovative Assessment Solutions (IAS), kampuni ya Kansas, zilizojengwa kuzunguka Viwango vya Kansas vya Kujiandaa kwa Chuo na Kazi. Mtoto wako hufanya tathmini fupi ya Astra mara nne kwa mwaka, mara moja kila robo. Mwaka unavyoendelea, Astra pia hutoa makadirio ya mapema na yanayozidi kuwa sahihi ya jinsi mtoto wako anavyotarajiwa kufanya katika tathmini ya KAP ya mwisho wa mwaka, ili majira ya kuchipua yalete mshangao mchache.

The Astra Assessments are a set of quarterly assessments from Innovative Assessment Solutions (IAS), a Kansas company, built around the Kansas College and Career Ready Standards. Your child takes a short Astra assessment four times a year, once each quarter. As the year goes on, Astra also gives an early, steadily sharper estimate of how your child is likely to perform on the end-of-year KAP assessment, so the spring brings fewer surprises.

Astra imeundwa kusaidia ujifunzaji wakati wa mwaka, pamoja na kila kitu kingine unachosikia kutoka kwa mwalimu wa mtoto wako. Matokeo ya kila kiwango hufika kwa walimu ndani ya siku chache—wanafunzi wakiwa bado wanajifunza—ili waone mara moja ni viwango vipi darasa limejifunza, vipi vinahitaji muda zaidi, na wapi pa kurekebisha ufundishaji.

Astra is designed to support learning during the year, alongside everything else you hear from your child's teacher. Standard-by-standard results reach teachers within days—while students are still learning—so they can see right away which standards the class has learned, which need more time, and where to adjust instruction.

Tathmini ya kila robo hushughulikia viwango vinavyofundishwa robo hiyo tu ndani ya wilaya yako, hivyo inaonyesha kazi ya hivi karibuni ya darasani badala ya mwaka mzima kwa mara moja. Muundo wa tathmini hii ni wa kipekee kwa wilaya yako, hivyo wanafunzi katika wilaya nyingine hufanya maswali tofauti, kulingana na mtaala wa wilaya yao.

Every quarter's assessment covers just the standards being taught that quarter within your district, so it reflects recent classroom work rather than a whole year at once. The composition of this assessment is unique to your district, so students in other districts take different questions, depending on their district's curriculum.

Alama ya KAP iliyotabiriwa (Mpango wa Tathmini wa Kansas)
Predicted Kansas Assessment Program (KAP) score

Mpango wa Tathmini wa Kansas (KAP) ni mtihani wa jimbo ambao wanafunzi wa Kansas hufanya karibu na mwisho wa kila mwaka wa shule. Jimbo hutumia KAP kupima jinsi wanafunzi wanavyotimiza Viwango vya Kansas vya Kujiandaa kwa Chuo na Kazi, na shule na wilaya hutumia matokeo kuona ni wapi wanafunzi wanahitaji msaada zaidi. Kwa kutumia yale ambayo mwanafunzi wako ameonyesha kwenye tathmini za Astra hadi sasa mwaka huu, alama iliyo hapa chini inatabiri jinsi anavyotarajiwa kufanya katika tathmini ya KAP ya mwisho wa mwaka. Ni makadirio ya mapema yanayozidi kuwa sahihi kila robo, ili majira ya kuchipua yalete mshangao mchache.

The Kansas Assessment Program (KAP) is the state test Kansas students take near the end of each school year. The state uses KAP to measure how well students are meeting the Kansas College and Career Ready Standards, and schools and districts use the results to see where students need more support. Using what your student has shown on the Astra assessments so far this year, the score below predicts how they are likely to perform on the end-of-year KAP assessment. It is an early estimate that grows sharper each quarter, so the spring brings fewer surprises.

Nukta ni alama ya KAP iliyotabiriwa ya mwanafunzi wako kwenye mizani ya 400–700. Pau linaonyesha kiwango kinachowezekana: kuna uwezekano mkubwa (takriban mara 19 kati ya 20) kwamba alama ya KAP ya mwisho wa mwaka ya mwanafunzi wako itakuwa ndani yake. Kiwango hiki ni kipana mapema mwakani na hupungua kadiri mwanafunzi wako anavyofanya tathmini zaidi za Astra. Sehemu zenye rangi ni viwango vinne vya utendaji vya KAP.

The dot is your student's predicted KAP score on the 400–700 scale. The bar shows the likely range: your student's end-of-year KAP score will very likely (about 19 times out of 20) fall somewhere inside it. The range is wider early in the year and narrows as your student takes more Astra assessments. The colored sections are the four KAP performance levels.

Grafu hizi hufuatilia alama ya KAP iliyotabiriwa ya mwanafunzi wako katika robo zote nne. Nukta ni utabiri kutoka tathmini ya Astra ya robo hii na pau linaonyesha kiwango chake kinachowezekana. Kila robo inapotathminiwa, utabiri wake huongezwa, ili picha ya jinsi mwanafunzi wako anavyotarajiwa kufanya katika tathmini ya KAP ya mwisho wa mwaka iwe wazi zaidi mwaka unavyoendelea.

These graphs track your student's predicted KAP score through the four quarters. The dot is the prediction from this quarter's Astra assessment, and the bar shows its likely range. As each quarter is assessed, its prediction is added, so the picture of how your student is likely to perform on the end-of-year KAP assessment grows clearer over the year.

Alama ya Uwajibikaji kwa Somo

Subject Accountability Score

Alama ya Uwajibikaji kwa Somo hufupisha jinsi mwanafunzi wako anavyofanya katika Viwango vyote vya Kansas vya Kujiandaa kwa Chuo na Kazi vilivyopimwa katika somo hili. Inaripotiwa kwenye mizani ambapo 150 ni mwanafunzi wa wastani. Wanafunzi wengi (takriban 95%) hupata kati ya 136 na 164. Sehemu zenye rangi ni viwango vinne vilevile vya utendaji kama vya mtihani wa jimbo, vilivyowekwa kwenye mizani hii; alama ya juu zaidi inamaanisha utendaji bora wa jumla katika somo.

The Subject Accountability Score summarizes how your student is doing across all of the Kansas College and Career Ready Standards measured in this subject. It is reported on a scale where 150 is the average student. Most students (about 95%) score between 136 and 164. The colored sections are the same four performance levels as the state test, placed on this scale; a higher score means stronger overall performance in the subject.
